KCP&L Custom Rebate Program Award

The City of Maryville has been approved by Kansas City Power & Light for an energy efficiency rebate incentive of \$25,544 with regards to upgrades to the water intake system at Mozingo Lake. In December 2012, the City of Maryville entered into an agreement with the Missouri Department of Natural Resources to participate in the *Energize Missouri Water Loan Program* for energy savings at the water intake. The program provided a low interest loan of \$154,029 to install energy efficient motors and variable frequency drives (VFDs) and annual repayments will be derived solely for the cost savings. On May 28th, Council approved a contract with R/S Electric for an amount of \$78,490.00 to install the equipment. The KCP&L rebate program will assist with early repayment of the loan and was made possible through efforts of People Service Inc.

It's time for a new school year to start. Please be mindful of children walking or bicycling to school. Help keep our children safe!
