## PING Demo Day at Mozingo Lake Golf Course

Mozingo Lake Golf Course staff has secured a demo day from PING for Wednesday, May 21, 2014 from 3:00 p.m. to 6:00 p.m. The demo day will be advertised on the PING website and the event will offer custom fitting and allow golfers to test the latest in equipment and apparel. Bridgestone will also be back next year for their swing analysis clinic, and the date will be release at a later time.

For more information, Contact the Mozingo Golf Clubhouse at 660-562-3698.  
For reservations, Contact the Mozingo Maintenance Building at 660-562-2323.

### 7th & 9th Street Trail Project

All twenty-eight (28) temporary construction easements for the 7th and 9th Street Trail Project have now been acquired for the construction of the trail segment. Easements were acquired according to MoDOT specifications and the City has submitted a Right-of-Way Clearance Request to MoDOT to proceed with bidding the project. If approved, City staff will work with Olsson Associates to bid the project before the end of the calendar year, with an anticipated start construction start date of March 1, 2013. The project will construct an eight (8) foot wide concrete trail along the north side of 9th Street from the Northwest Missouri State University Campus to Main Street and on 7th Street from Main to Davis.

### MDNR Mozingo Lake Recreational Trails Grant

### MISSOURI DEPARTMENT OF NATURAL RESOURCES

The Missouri Department of Natural Resources has notified the City of Maryville that our application to the FY 2013 (Recreational Trail Program (RTP) Grant has been approved in the amount of \$100,000. The application outlined a project to extend an 8' wide concrete trail system at Mozingo Lake Recreation Park for a distance of 1,752 linear feet. The city's grant match will come from the utilization of maintenance labor and equipment at an amount valued at \$36,734, for a total project cost estimated at \$136,734. The trail extension will provide a loop beginning at the RV Park near the west end of the existing trail and stretching southeast ending near the entrance of the primitive camping area. Two (2) benches were included in the application to provide rest areas and utilize scenic lake views at the southwest portion of the trail extension.

### Unsafe and Dangerous Structure Removal

The City of Maryville has been working with Ray Walden who is the Personal Representative of the Lenna Walden Estate. The estate includes several properties throughout the community that are either tagged as "substandard" or fall within the limits of the Campus Town Redevelopment Incentive Program. In working with the property owner, an agreement has been reached for the removal of the following structures: 916 East Thompson Street, 321 West Sixth Street, 314 West Third Street, 121 South Hester Street, and one (1) additional residential structure. The five structures will be removed by the property owner which will remove blight and create opportunities for infill redevelopment.

### MCAC Tournament at Mozingo Lake Golf Course

The Midlands Collegiate Athletic Conference (MCAC) will be having a tournament at Mozingo Lake Golf Course in March of 2014 hosted by Waldorf College of Forest City, Iowa. The two-day tournament will feature teams from the MCAC located in Kansas, Arkansas, Oklahoma, Iowa, Nebraska, and Missouri.

### Mozingo Dock Replacement Grant

Mozingo Lake Recreation Park is one step closer to receiving a grant from the Land Water and Conservation Fund to purchase an eco-friendly boat dock to be placed at the family cabin area. The dock will be similar to the new dock placed at the RV Campground and is similar to the dock used at the City ramp. The dock currently at the family cabin area will be repurposed at another location.

### Electrical Upgrades at Mozingo Lake Recreation Park

The RV Park is currently undergoing electrical upgrades to a 50 amp service. Once completed, the RV Park will have 50 amp service at all RV spaces on the west side of Mozingo Lake.

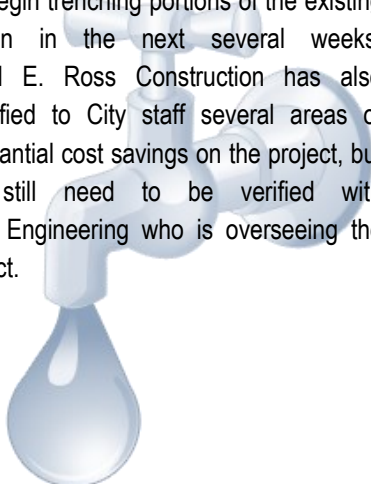

### Northwest Technical School Cabin Construction

The Northwest Technical School is making progress on the construction of two (2) additional cabins near the Mozingo Lake Golf Course. Both cabins are completely enclosed and interior work will continue throughout the winter. The cabins are anticipated to be complete no later than the end of the regular school year in Mary and will offer some unique "stay and play" possibilities for the future.

### Wastewater Treatment Plant

David E. Ross Construction is nearing completion of the initial dirt work on the Wastewater Treatment Plant Project and estimates that they are currently thirty (30) days ahead of schedule. The contractor will begin trenching portions of the existing lagoon in the next several weeks. David E. Ross Construction has also identified to City staff several areas of substantial cost savings on the project, but will still need to be verified with HDR Engineering who is overseeing the project.
