SOUTHDALE GREENSPACE

Councilman Jonagan stated that a proposed section of land, approximately 7 acres, located on the east side of Southdale Subdivision, along Peach Creek, is being offered to the City for development of a green space or park. Melvin and Ann Gibson, owners of the land, have agreed to pay for survey costs, to have some of trees, brush and debris cleared along the creek, especially on the south end. An easement will need to be realized for sewer lines. It was suggested that this area could be incorporated into the trails projects.

City Attorney Thomson warned the Council to beware of the liabilities that may come along with the acquisition of the proposed greenspace. He added that it could result in a similar situation as the Parkdale Subdivision, after the 2007 ice storm, where residents asked the city to clean out Peach Creek in that area to allow water to flow. It was determined at that time that Peach Creek was a part of the private properties on either side and that it was the property owner's responsibility.

Councilman Jonagan and City Manager LeCerf will visit the site and communicate with Mr. and Mrs.

Gibson to develop an agreement in writing for a possible transaction of the land.

ENHANCED ENTERPRISE ZONE (EEZ)

Previous discussion of the Enhanced Enterprise Zone (EEZ) was to determine how the City might provide incentives in the structuring of an EEZ. City Manager LeCerf reminded the Council that the City had initially opted out when the invitation to join with the County to form an EEZ. It was suggested that it would be the County’s place to lead the initiative and the City of Maryville should act as a participant in the dialogue and structuring of the EEZ.

The City Council and City Manager reviewed suggested items to be considered in forming and operating an EEZ. After determining a qualifying zone for the EEZ, it is in effect for 25 years. The first step would be the composition of the board. It was recommended that since Maryville is the largest municipality in Nodaway County in terms of area and population, that the City has a representative on the board at all times.

The purpose for establishing the EEZ, at this time, is to offer an incentive in conjunction with the development of wind turbines in Nodaway County, even though the wind turbines will not have any direct effect on the City financially. Eligibility for the EEZ would be based on their respective NAICS Code. Each NAICS Code is included in the initial enabling ordinance. Although there is an interest to provide an incentive to develop wind turbines, discussion should also be had to determine if other NAICS Codes should be added prior to the ordinance adoption. Adding NAICS Codes can be accomplished by giving that responsibility to the EEZ Board or requiring the decisions to add business types to be determined by the respective elected officials of the various governmental entities.

Discussion will need to occur regarding the terms of percentage of tax abatement incentive on real property on the increase in assessed value or improvements. Contact will be made with Nodaway County to begin discussions in developing an EEZ.

ENHANCEMENT PROJECTS

City Manager LeCerf stated that in late August the City received notice from the Missouri Department of Transportation that additional Transportation Efficiency Act funds are available. Submission of Application is due December 1, 2010. City Manager LeCerf reviewed the various trails projects that the City has undertaken by similar funding opportunities. He stated that he would like to get started on making application and making contact with the property owners in the proposed area to inform them of the plans if the Council was interested in pursuing it.

The City Council agreed that the City should move forward in attempting to secure funds for future projects.

AMENDMENT OF FISCAL YEAR BUDGET 2009-2010

The City Clerk presented a bill, being Bill No. 2010'82 for an Ordinance entitled:

An Ordinance Approving the Revised 2009-2010 Fiscal Year Budget of the City of Maryville, Missouri, Appropriating from the Revenue of the City Requisite Therefore and Providing for the Method of Adjustment Thereof

Dir., Finance Denise Town explained that three (3) funds needed to be amended for the fiscal year 2009-2010 budget, due to total expenditures exceeding the original budget. The Community Center Construction Fund did not identify all specific projects remaining to be completed using the debt proceeds, so the difference was classified as "contingencies". During the year some of the projects were completed and others are still in progress. The amended budget reflects those changes and reduces the contingencies line item accordingly (\$82,794).

The Debt Retirement Fund amended budget reflected a net difference of zero, but reallocated a portion of contingencies to other expenditure line items. This was necessary due to higher than budgeted transfers to the TIF Fund for the sales tax collected in that fund.

The TIF Fund was amended to reflect a higher reimbursable project cost payment to Nucor-LMP, based on additional PILOT monies, as well as contingencies being reduced to offset the decrease from the original budget in transfers from the General Fund that were not necessary at that time (\$6,310).

City Manager LeCerf explained the overview provided of the proposed balanced budget for the fiscal year 2010-2011. The budget estimated the revenue for this period at \$24,096,643 and expenditures at \$26,981,180. The difference between the two is due to a number of funds that will be utilizing existing reserve funds from their respective funds. Most of the balances required are due to large capital projects that begin and possibly finish in this period. With others expenditures are higher than the revenues and reserve funds balance are used to budget the basic operations and maintenances required.

At the August 23, 2010, City Council meeting, it was suggested that the Council consider amending the ordinance regarding dog license fees, to allow for dogs that have been determined by a licensed veterinarian, to be too old or having health issues to be spay or neutered, be exempt from the additional \$20 cost for a dog license.
